Isizulu

Bongani Sithole
Mobile and Web Developer

As a dedicated professional in the dynamic world of technology, my goal is to contribute my expertise and drive for excellence to an organization that values innovation and entrusts me with impactful responsibilities. With a strong passion for game development, web and mobile applications, Python-based data science, extensive research experience, and a deep love for continuous learning, I am poised to make a meaningful impact in the ever-evolving tech industry.

Experience

2023 - 2023
Mlab CodeTribe l 09 Morogoro Rd , Tembisa
Mobile and Web Developer Trainee

Developed dynamic web applications, enhancing user experiences, and enabling real-time functionality using JavaScript. Leveraged Firebase as a robust backend platform to create secure and scalable web applications. Managed databases, authentication, and hosting for projects .Implemented server-side logic and created robust APIs using Node.js to facilitate seamless communication between front-end and back-end in projects .Successfully built cross-platform mobile applications with React Native, allowing for efficient code reuse and rapid app deployment. Designed and developed high-performance web interfaces with React.js, delivering modern and user-friendly designs in projects

2023 - 2023
Seriti Institute l 32 Charl Cilliers St, Standeron
General waste management worker

Conducted comprehensive waste stream analyses to identify sources, types, and volumes of waste generated. Ensured compliance with environmental regulations and waste disposal laws maintaining necessary permits. Developed and implemented waste reduction strategies, resulting in cost savings and environmental benefits. Developed and implemented waste reduction strategies, resulting in cost savings and environmental benefits

2022 - 2022
Wirespreed Systems l 87 Gordon Rd NorthCliff , Randburg
Python programming Trainee

Strong grasp of programming fundamentals: variables, data structures, control flow . Proficient in Python syntax, semantics, and runtime environment. Skilled problem solver with experience resolving implementation issues. Expertise in standard library functions and best practices in Python 3. Proficient in modules, packages, file processing, generators, iterators, closures.
